⭐ SOFT SKILLS

Strong understanding of UX best practices, usability principles, and design techniques. Experienced in developing applications that closely follow design specifications and accessibility standards.
Skilled in problem-solving, coding, debugging, functional programming, and modern design patterns. Consistently deliver high-quality, detail-oriented code, with the ability to produce maintainable and scalable front-end solutions. Proficient in writing clean HTML, CSS, and JavaScript that performs reliably across all major browsers, platforms, and devices including mobile phones and tablets.

🧠 SKILLS

- HTML & CSS
- JavaScript
- React
- Next.js
- Node
- Typescript
- SQL/PostgreSQL

🪪 PROFILE

Senior Web Developer with over 10 years of experience in front-end technologies, specializing in building responsive and user-friendly websites and web applications.
Creative, detail-oriented, and proactive, with the ability to work effectively both independently and as part of a team. Passionate about learning emerging technologies and staying up to date with the latest industry trends.
I enjoy watching movies, traveling, and spending time with my family. Music has always been an important part of my life. I enjoy playing the guitar and occasionally writing my own songs when inspiration strikes.

💼 EMPLOYMENT HISTORY

3Pillar Global
Senior Software Engineer
02/2022 – 04/2025

- Led frontend development for two web applications: one designed to connect organizations with vetted training contractors (L&D), and another for smart facilities management using IoT integration.
- For the recruitment app, collaborated on initial setup, tool selection, and component refactoring to align with modern standards and best practices. The platform serves employers, talent, and project managers.
- For the property management app, contributed to new feature development, refactoring, and maintaining UI consistency and performance.
- **Technologies**: React, TypeScript, Tailwind, Material UI, Easy Peasy (state management), Redux, Auth0, Axios, PowerBI, Jest, ESLint, HTML, CSS

Gorilla Logic
Senior consultant
05/2019 – 01/2022

- Led frontend development for two web applications for a real estate business: one for residents and another for admins.
- Defined and set up project structure, tooling (formatting, linters), and best practice standards.
- Collaborated with the design team to provide creative input and assess technical feasibility.
- Focused on performance optimization and clean, scalable architecture.
- Implemented tests using third-party JavaScript-based testing tools.
- Supported backend development with Node.js and Knex(database layer).
- **Technologies**: React, TypeScript, Node, Knex(SQL), Material UI, Easy Peasy (state management), Axios, Jest, ESLint, HTML, CSS

Hangar

Senior Web Developer

09/2015 – 04/2019

- Worked on short-term projects across various markets and frontend stacks.
- Defined project scope, timelines, and task planning in collaboration with product and delivery teams.
- Built and maintained marketing websites and landing pages in HTML and CSS.
- Took full ownership of web development, troubleshooting, and long-term maintenance.
- **Technologies**: Angular, React, Handlebars, Gulp, Greensock (animated banners), HTML, CSS (Bootstrap, Styled Components, Foundation, Bourbon), Email Templates

Accenture

Senior Front-End Developer

12/2012 – 08/2015

- Developed and supported web solutions for multiple clients.
- Participated in frontend developer interviews and onboarding.
- Delivered pixel-perfect HTML/CSS pages based on design specs.
- .Applied deep knowledge of JavaScript and jQuery for better user experience.

Technologies: JavaScript (jQuery), PHP (WordPress), Sass, Bootstrap, HTML, CSS

BOSZ Digital

Web Developer

04/2011 – 07/2012

- Developed and maintained websites for diverse clients.
- Managed a custom CMS and built isolated, reusable components.
- Refactored legacy codebases and improved maintainability.

Technologies: JavaScript (jQuery), PHP (WordPress), Sass, Bootstrap

Codemyconcept

Web Developer

09/2010 – 04/2011

- Delivered hand-coded, W3C-compliant websites under tight deadlines.
- Converted design files into HTML/CSS, email templates, or WordPress themes.

Technologies: JavaScript (jQuery), PHP (WordPress), HTML (Email Templates), CSS
